

SunTel's Hosted PBX designed specifically for small and medium-sized companies comes packed with enterprise-level phone capabilities—at a fraction of the cost. It requires no expensive hardware/software to purchase or upgrade because we manage and monitor it through the cloud 24/7.

WHY HOSTED PBX?

COST- EFFECTIVE

- Cuts your telephone bill substantially
- Eliminate expensive and complex PBX hardware and software
- Free unlimited phone extensions & voice mail boxes

SCALABLE

- Grows with your business
- Easily add users/extensions from the web portal
- Adding multiple office locations is simple

CONVENIENT

- Work from anywhere - your office, home, or on the road with smart phone/ tablet
- Home and mobile workers have same phone capabilities as office workers

RELIABLE

- Built -in disaster recovery and 24/7 network management
- Unparalleled customer support/service
- Crystal clear HD sound quality
- Never miss a call. System automatically reroutes calls in the event of power outage or disaster

POWERFUL

- User friendly web-portal to manage the entire phone system
- Free 50+ enterprise level features like auto attendant(IVR) , Find Me/Follow Me , voice mail to email, conference call, etc

EASY TO MANAGE AND USE

Hosted PBX is easily & entirely managed through its user-friendly web-portal from anywhere in the world.

- Add and change users easily
- Easily add or remove features for all users/groups
- Manage multiple offices and remote users
- Manage internal/external calls on the fly
- Customizable auto attendant with marketing/branding capabilities
